Learn Naturally

DAVID FLEAY WILDLIFE PARK SCHOOL PROGRAMS

Nestled in the heart of Burleigh Heads on the Gold Coast, David Fleay's is a wildlife park with a difference! As the only Queensland Government owned and operated wildlife park, our focus is not only on our wildlife, but the conservation of their habitats and the education of all those who visit.

Our school programs feature environmental education activities linked with the Australian Curriculum (ACARA) and C2C. Your students will experience Queensland's natural environment through educational talks, wildlife presentations, interactive experiences with native animals and self-guided walks.

We have education programs for each year level and activities can be tailored to suit your educational needs. Contact our Education Ranger to request a copy or to discuss your individual class needs.

Let us inspire your students to protect our unique landscapes and animals!

Sample itinerary

9.30am	Arrival and welcome
9.45am	Park Ranger's creature feature
11.00am	Creatures of the Night (30mins)
