*** Introduced species**

This list was compiled from the published literature, Queensland Museum specimen records and observations made by Departmental Staff and experienced naturalists. Bibliographic information can be obtained from Fraser Island Ranger Stations. Interested persons are most welcome to contribute their records. New and unusual sightings will be substantiated before they can be included on any revised list.

Common names follow Christidis, L. and Boles, W.E. (1994) The taxonomy and species of birds of Australia and its territories. RAOU Monograph 2.
